SIGNS OF SLACKENING TO BLOODY MASSAGE STILL IN PROGRESS AMONG CANALS AND SAND DUNES.

PORTUGAL MUST FIGHT

German Invasion of Portuguese Colony in West Africa Is Reported Today—Revolt in British South Africa Continues to Menace.

The great battle for the possession of the strip of coast running along the North Sea from Ostend to Calais is said by the French to be swinging slowly in favor of the allied forces. The assaults of countless German troops which apparently attain the heights of human efforts, were matched with equal courage and ferocity and today the offensive efforts of the Germans were said to be relaxing.

For the third successive day the French official statement asserted the advantage lay with the allies. It is noticeable, however, that the French claims in Egypt have been vague and bare of detail as to the capture of towns or localities which may be set down on the map as marking a definite advance at any point. "Progress," "advances," or "gains," are reported at various sections of the line not closely indicated.

From unofficial reports from the front it is inferred that in the main, conflict is raging along practically the same line as heretofore, and that the deadlocks have not been broken.

London reports unofficially that the fiercest German attack had diverted from the sea coast slightly to the south in the line between Dixmude and Ypres. This may possibly be explained by an assertion that the British fleet off the coast said to have been driven off for a time by German artillery, has resumed its activity.

Eastward along the main course of battle where comparative calm prevailed for several weeks, there are further indications that heavy action has been resumed. In today's statement it is said that the Germans attempted a violent offensive movement at Crayonne. This assault, it is said, was repulsed.

The conflict in Galicia is still undecided. Both French and Russians assert that the offensive action against the Germans is being pursued successfully near the fighting zone near Warsaw. It is reported unofficially from Petrograd that the Russians have not succeeded in pushing their advance along their left and center as far as they had hoped. An unusually early winter threatens untold hardships for the invading Germans.

The rebellion in South Africa, led by Christian De Wet, the famous opponent of Lord Kitchener, in the Boer war, and General Byers, former commander of the military forces of the Union of South Africa, present a new menace to Great Britain, which causes no little concern. No word had come up to early afternoon to indicate whether this new revolt had assumed formidable proportions. Coming so quickly after the suppression of the uprising under Colonel Maritz, it was believed to indicate that England was facing a serious problem in her hard won colonies.

The main assault on Tsing Tau has again been postponed by the Japanese. Tokio reports that the attack on the German fortress has been delayed by storm, but that the preliminary bombardment was proceeding from land and sea, causing much damage to the German forts.

E. L. PHILIPP HAS NOTICES SERVED ON STATE NEWSPAPERS

Candidate for Governor Declares Libelous Articles Were Published and Demands a Retraction.

Milwaukee, Wis., Oct. 25.—Notices were served Tuesday and Wednesday by attorneys for Emmanuel Philipp, republican candidate for governor, on papers which he considers have been publishing articles of a libelous character in regard to him, stating that Mr. Philipp considers the articles as libelous and demanding a retraction.

These notices are in accordance with a statute which provides that opportunity shall be given newspapers to retract in case of libelous publication and that such retraction can be pleaded in mitigation of damages, and according to the attorneys for Mr. Philipp the notices are preliminary to libel action in case the retractions are not satisfactory to Mr. Philipp.

Following is a copy of the notice which was served on several of the newspapers in the city:

"In your issue of October 25, you published a certain malicious and libelous article entitled, 'The Hand of Esau.'"

The charges therein contained were completely exploded and refuted in an action which I brought in the United States courts in New York in 1908 against the publishers of McClure's Magazine, and in which action I recovered a judgment of \$15,000.

"I stamp the article published by you as a fabrication of falsehoods, and demand that you immediately make full and complete retraction, giving as ample publicity to the retraction as the published article; unless you comply with this demand immediately I shall instruct my attorneys to proceed against you in the courts."

LAWRENCE COLLEGE TO ENLARGE CAMPUS

Trustees Accept Plan Which Calls for New Building and Extension of Grounds.

Appleton, Oct. 25.—Tentative plans for a new building called at Lawrence College which will end with accommodation of 1,500 students, were provisionally accepted by the trustees of Lawrence College at an annual meeting last evening.

The scheme embraces a large number of new buildings, including a dormitory, scholastic buildings, gymnasium and hall and provides for the extension of the campus from Durkee to Law streets, adding two blocks to the grounds now occupied. The plans called for the use of the present campus for purely educational purposes, and the new gymnasium enlarged and used as a science building, while the third structure for scientific purposes will be constructed on the present site of the president's residence.

Greek Premier Explains That Move Is Prompted by Humanity Rather Than Greed.

Paris, Oct. 25.—The Greek premier, M. Venizelos, questioned in the chamber of deputies concerning the situation in Albania, declared that the Greek government had ordered the occupation of the Greek towns in Albania, and that the Greek army was now in the process of occupying the towns of Gjirokastra, Korca, and Durrës.

FORTY-SEVEN BODIES RECOVERED IN MINE

All But Three Miners Who Entered Franklin Company Before Explosion Are Accounted For.

Royalton, Ill., Oct. 25.—Forty-seven bodies had been recovered from the Franklin Coal and Coke Company which was wrecked by a gas explosion yesterday. All but two or three of the miners who entered the mine have been definitely accounted for.

AWARD TO OSHKOSH COMPANY AFFIRMED

Railroad Commission's Price for Water Company's Plant Declared Reasonable by Court.

Madison, Wis., Oct. 25.—Judge E. Ray Stevens of the Dane county circuit court today affirmed the award of the state railroad commission which fixed the value of the Oshkosh Water Works company, purchased by the city of Oshkosh under the indeterminate permit law, at \$255,000.

The court finds nothing in the award of the commission to make sufficient ground for the value of the water works on the land taken that would lead to the conclusion that the compensation fixed is unlawful, says the opinion.

"The subject of taxes the court says that these were fixed against the plant as personal property as of the date May 1, that the company continued to manage the plant and collect the income up to the following October; that after that date the company received interest on the amount of the purchase price; and that it ought to pay the tax assessed against its property."

Doesn't Affect Value. "As to the provision of the bond with respect to the amount of premium," continues the opinion, "if the company is under obligation to pay this premium, it arises out of its contract with its bondholders which was in effect at the time that the company elected to accept the indeterminate permit."

The value of the plant is not affected by the fact that the company may have agreed to pay a premium for its money any more than it would be if the company could discontinue the payment of its bonds for cash because of the present state of the money market.

On the subject of going value, the court says that this was fully considered, and that the ruling of the commission will stand.

The court costs will be kept in mind the fact that just compensation is not found by adding up separate items," says the court, "but by taking a complete view of the value of the property, tangible and intangible. It appears the commission carefully weighed all the various factors or elements of value which should be considered in fixing just compensation."

GOOD ROAD CONGRESS OPENS IN MILWAUKEE

Demonstrations Showing Value of Good Roads, Made in Milwaukee by National Experts.

Milwaukee, Wis., Oct. 25.—Secretary of State Bryan, a half a dozen governors and road experts from all parts of the country were in Milwaukee for the opening of the Good Road Congress which opened in the Auditorium here today.

Uncle Sam himself was officially present as a demonstrator of how and how not to build roads. Wisconsin, Iowa, and Minnesota highway commissions were present for the same purpose.

Bryan is racing across Wisconsin today, speaking at nearly a dozen places on behalf of the Democratic state ticket, and is making a political speech here tonight, but the state committee promised to loan the secretary of state to the highway experts for a few minutes at least during the evening session.

CARRANZA TO QUIT IF GENERALS VILLA AND ZAPATA RETIRE

Resignation Will Be Submitted On One Condition—Villa Says He Does Not Desire Presidency.

Washington, Oct. 25.—The American government was officially informed today by the minister of foreign relations at Mexico City that General Carranza had submitted his resignation to the national convention at Aguascalientes on the condition that General Villa and Zapata resign their post in the constitutional army and retire to private life.

General Carranza's action, it was stated, was taken purely in the interest of domestic peace. No word was received of what action was taken by the convention. Villa repeatedly has stated to American consular agents that he had no ambition to be president of Mexico. It was believed that there would be less difficulty in adjusting the situation in respect to Villa than as to Zapata.

The latter was installed since Huerta abdicated in the demand that he be permitted to share the executive power with Carranza. His representatives at the convention say that they have a complete command in the military. It was clear from official reports that Villa's followers were in control of the convention, and now could rely on the support of the Zapata delegates.

TRAGEDY IS CAUSED BY FAMILY QUARREL

Galesburg Candy Merchant Shoots Wife, Slays His Three Children and Commits Suicide.

Galesburg, Ill., Oct. 25.—W. M. Stromberg, a candy manufacturer, early today shot and killed his three children, wounded his wife and killed himself. The shooting was the result of a quarrel in the middle of the night when Stromberg demanded more bed clothes, saying he was cold.

Stromberg procured a shot gun and first shot Mrs. Stromberg, injuring one of her hands. She leaped from her bed and fled in her nightclothes into the street. Stromberg then ran to the room where his three children, Joyce, aged 17, Evelyn, 12, and Ralph, 8, were huddled together in terror. Three shots ended their lives. The man shot himself to death.

Stromberg has been in business here twenty-five years and is of a prominent family.

SURVIVORS OF SHIP DESTROYED BY MINE RETURN TO ENGLAND

Rescued Officer Tells of Explosion Which Wrecked Boat Off Irish Coast.

Trawler City of London With Thirty Members of Crew of British Freighter Arrives in Port.

Fleetwood, England, via London, Oct. 25.—Trawler City of London, arrived here early today with the survivors of the British freighter steamer Manchester Commerce, which struck a mine Monday night off the north coast of Ireland, sank. The crew were rescued by the trawler. The ship was wrecked, and thirteen others were saved by the trawler. Ambulances, physicians and a large crowd of the townspeople were at the dock when the trawler came in. The second officer, Goss, told the story of the disaster. He said:

"The explosion occurred twenty minutes north of Tory Island on the main trade route from Manchester to Canada. The explosion shook the vessel as if it was merely a ship of wood. There was no doubt in anybody's mind that what had happened. The ship began to sink at once and was beneath the waves seven minutes after striking the mine.

"I was swimming for twenty minutes before I was picked up. The last I saw of the captain was giving orders for launching a second boat. I took command in the solitary boat and picked up many survivors, and then we cruised about for a long time. When satisfied that there were no more to be saved, we hoisted an improvised sail. We had gone forty-two miles when we were picked up by the trawler."

AMERICAN STEAMSHIP STOPPED BY BRITISH

Steamer Loaded With Copper Held at Gibraltar—Report Received by State Department.

Washington, Oct. 25.—The American steamer Kroomland from New York bound for Naples and Greece, with a cargo of copper, has been detained at Gibraltar by British authorities, according to a report to the state department today from American consul Sprague.

Consul Sprague did not report the reason for the detention of the Kroomland, but as copper is listed by the British foreign office as a condition contraband, it is assumed that the British government's attitude is similar to that in the case of another American ship, the Kroomland, which was detained at Gibraltar by the British government. In that case when the British government gave assurances that copper cargoes would not be reshipped to Holland, the British government withdrew its objections.

INTERPRETS PROVISIONS OF STANDARD FIRE POLICY

Madison, Wis., Oct. 25.—In the case of J. Rosenthal vs. Insurance Company of North America, the supreme court interpreted the standard fire policy's provisions. It holds that a standard fire policy insuring horses, "while contained in the frame brick front barn situated at the rear of 425 Fifth street," covered only while the horses were in the building mentioned, and did not cover in a building in which the horses were boarded, though removed from the barn because the building described in the policy was undergoing repairs, making it impossible to keep the horses there at the time and that the knowledge of the company that the horses would be temporarily in some other place did not make the policy enforceable because of waiver on the part of the company.

EQUALIZATION BOARD HAS MEETING TODAY

COUNTY SUPERVISORS PASS ON REPORT OF SUPERVISOR OF ASSESSMENT TAYLOR.

TRUE VALUE IS FIXED

Difference of Thirteen Million Dollars Between Assessed and True Valuation of All Property.

Members of the board of equalization of the county board, composed of F. W. Wilford, chairman, J. F. Allen, M. L. Paulson, P. F. McGee, W. P. Marquart, John Keough, B. C. Hansen, C. J. Stoner, and P. R. O'Neal, met today at the county clerk's office for

that of the assessors. The assessed valuation of Beloit real estate is \$10,681,000 against Janesville's \$11,407,000, and the true values for the two cities is Beloit \$12,112,000 and Janesville \$11,769,000. The difference in assessed and true values on real estate in the townships ranges from \$200,000 to \$700,000, the assessed valuations being too low in every case. The town of Janesville, like the city, shows fairness in assessment as compared with the true value, the difference being only \$176,000, the lowest of any of the towns. The three villages of the county also show small differences between the real and true values.

One table in Mr. Taylor's report gives some interesting figures in regard to the value of farming land per acre according to the figures of the assessors. In only two townships do the assessors' figures show real estate to be worth one hundred dollars an acre or more, Bradford at \$100.02 and La Prairie at \$106.53. Farm lands in the city of Janesville are assessed at \$424.28, and in Beloit at \$232.70 per

the purpose of preparing their report to the county board at the November session. Supervisor of Assessment T. A. Taylor was present at the meeting and submitted copies of his printed report which was long over carefully by the committee. The true valuation of property in the various assessment districts was determined for the purpose of equalizing the state and county taxes.

Assessment Too Low. According to Mr. Taylor's report the valuation of real and personal property in the county as fixed by the assessors is too low by \$10,582,068, the assessed valuation being \$74,825,510 against the true valuation as determined by Mr. Taylor at \$85,407,578. The latter figure does not include the values of electric railways, which are added to secure the figures used in equalizing the state and county taxes. The assessed valuation of the real estate of the county is \$81,452,000, while the true value is more than ten million dollars higher. The assessed valuation of real estate in the townships is \$34,493,000, while the true value is \$42,282,000, or a difference of \$7,789,000. For the cities and villages the assessed and true values are nearer in accord, the assessed value being \$26,958,000 against the true value of \$29,250,000.

Janesville Well Assessed. The real estate in the city of Janesville is assessed as well or better than the real estate of any assessment district in the county, according to Taylor's figures, as the difference between the assessor's figure and the true valuation is but \$852,000, while for the city of Beloit the figure fixed by Mr. Taylor is a boost of \$1,431,000 over

that of the assessors. The average assessed value of farm lands in the townships is \$76.96 per acre, for the cities and villages it is \$326.20 and the average for the entire county is \$80.26.

ARREST LOCAL MAN ON CHICAGO CHARGE

Oliver Gleason Being Held by Police Until Arrival of Chicago Officer—Charged With Abandonment.

Oliver Gleason, who is employed at the Janesville Motor company, was arrested this afternoon and held, awaiting the arrival of a Chicago officer, to answer the charges of wife and child abandonment. This morning Chief of Police Champion received word from William O'Brien, the new chief of detectives at Chicago, that Gleason was wanted and for the Janesville police to apprehend him. Gleason was arrested while at work and is being held at the city hall station until the arrival of a Chicago officer. It is said Gleason was willing to go to Chicago without obtaining extradition papers to take him into Illinois. Gleason has sued for divorce from his wife, Hattie M. Gleason, which probably lead to his wife's complaint to the Chicago police.

GOLDEN WEDDING WAS CELEBRATED ON SATURDAY AT HOME IN FAIRFIELD

Fairfield, Oct. 27.—On Saturday afternoon, Oct. 24, at their pleasant country home near Fairfield, Mr. and Mrs. Harrison Wilkins celebrated the fiftieth anniversary of their marriage. Between thirty and forty relatives and friends gathered to help them celebrate the event. The time passed pleasantly with music, recitations and social chat. A dainty two course luncheon was served. The bride and groom of fifty years were the recipients of several beautiful gifts.

Mr. and Mrs. Gordon Mowers of Hastings, Nebraska, were here to attend the golden wedding of Mr. and Mrs. Wilkins. The next meeting of the L. A. S. will be Nov. 5th with Miss Mina Gage. Mrs. Mary Baldwin underwent an operation at the Beloit Hospital last week. Her many friends wish her a speedy recovery.

Miss Laura Serl of Whitewater Normal was a week end visitor at home. B. Richard and family were Janesville visitors Sunday. Maude and Floyd Chamberlin were Sunday guests in arien.

Musical at Library Hall Last Evening Attended by Small Audience—Mrs. Stevens Has Rare Voice.

Mrs. Nelda Hewitt Stevens, soprano; Miss Celene Loveland, pianist, and Ridgely Hudson, tenor, the entertainers at the musical concert rendered last evening at Library Hall, were greeted by a small but highly appreciative audience, numbering about forty, in which thirty were children.

It is rare that such finished artists come to Janesville, and those who listened to the difficult selections, both vocal and instrumental, are of the firm opinion that the concert was a grand one, rivaling many other noted artists that have appeared in

Laught At Dyspepsia

By Simply Using a Stuart's Dyspepsia Tablet After Any Meal You Want to Eat.

It sounds almost ridiculous to think of eating a big meal without pain and discomfort afterwards, doesn't it? Well, try this simple remedy and demonstrate its truth. You know that 12 men (a jury) decide the laws of our land. Not only have 12 men O. K'd Stuart's Dyspepsia Tablets, but hundreds of thousands as well.

"What do I care about this meal? A little Stuart's Dyspepsia Tablet will digest it easily for me."

Just think! One ingredient contained in Stuart's Dyspepsia Tablets will digest 3,000 times its weight in food.

Doesn't this tell you that such aid to your body means relieving your distress from food?

What the thousands are daily doing you can surely do. Every condition of stomach and digestive troubles has been relieved by Stuart's Dyspepsia Tablets. They have been tested and tried for years. They are this nation's greatest dyspepsia remedy. They are sold wherever drugs are sold. Surely this manner of proof is all you need to know what course to pursue.

If any man can prepare a better remedy than Stuart's Dyspepsia Tablets he can make millions of dollars. If there a better one?

Why not use this hint to awaken your common sense and make you go to your druggist today and buy a box. To anyone wishing a free trial of these tablets please address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich., and a small sample package will be mailed free.

Members of the Switchmen's Union of North America have filed suit at Dallas, Tex. against the Missouri, Kansas & Texas, the Texas & Pacific, the Houston & Texas Central, the International & Great Northern, the St. Louis Southwestern, the Gulf, Colorado & Santa Fe, and the Brotherhood of Railroad Trainmen, to cancel contracts by which the roads are said to employ only members of the trainmen's union to the exclusion of members of the Switchmen's Union.

The regular monthly meeting of the Mineral Point and Prairie du Chien division Safety committees was held here yesterday at the depot. C. H. Agner, train dispatcher, and W. P. Thurber, division superintendent, were present. Representatives from every division point were in attendance. Recommendations for the elimination of danger both to passengers and employees were offered.

Today was Cheese Day at Monroe. The boys on the line west contemplated receiving all kinds of cheese dishes as they passed through the Green county seat of law.

SAFETY FIRST

Chicago & Northwestern. W. H. Wade, roundhouse foreman, A. M. Havenhill, car department foreman, Frank August, freight clerk, Frank Kennedy, store keeper, and B. Wade, left this morning for Chicago to attend this afternoon the monthly meeting of the Wisconsin division Safety First committee. The session was scheduled to be called at two o'clock in the office of G. W. Daly, division superintendent, with representatives of every division station present.

Bert Dennett, stationary engineer, made his debut as a locomotive fireman last night, heaving the Hoeking Valley on the night switch engine.

Engine 987 has been placed in the switching service.

Everything is set for the Machinists' Halloween party of Friday night at Assembly hall. Among the out-of-town guests and their families who have signified their intentions of being present are: E. B. Hall, assistant general superintendent of motor power and car departments; W. W. Hoffman, master mechanic; T. J. Stocks, formerly of this city, and at present road foreman of engines; E. Schultz, master mechanic of the Wisconsin division; and C. B. Cotten, night foreman at Fortieth street, Chicago.

Engine 639 is in the shops for repairs.

Chicago, Milwaukee & St. Paul. Neil McVicar, master mechanic, began yesterday an extended lay-off. Mr. McVicar's health is poor and he will not return to his duties for several months.

C. H. Hudson, a passenger on the Georgia & Valdosta, proposes that railroads and street railways aid the cotton growers in their financial distress, caused by the cessation of the European demand for cotton, by ordering the general use of cotton cloth (khaki) for uniform suits for employees. By prompt action a supply of this material could be provided in

Tuesday's Market. Chicago, Oct. 28.—A new record price was made for Montana grass cattle yesterday. Eighteen head averaged 1,572 lbs. sold to Swift & Co. at \$10 per 100 lbs. totaling more than \$157 per head. They belonged to F. M. Heinrich and were out of a shipment of 1,000 head, including 500 that sold an average of \$3.80.

The average price of hogs yesterday dropped 5c, and, while nearly \$1 lower than a month ago and 65c lower than a year ago, stands a few cents higher than average of corresponding periods for last three years. The average, at \$7.38, is 13c above a week ago.

Receipts for today are estimated at 17,000 hogs, 21,000 hogs and 32,000 sheep. Against 18,401 cattle, 30,254 hogs and 31,876 sheep a week ago and 18,263 cattle, 30,767 hogs and 41,493 sheep corresponding Wednesday a year ago.

Hog Average Lower. Average price of hogs at Chicago was \$7.38, against \$7.41 Monday, \$7.40 a week ago, \$8.30 a month ago, \$8.02 a year ago, \$7.77 two years ago and \$8.11 three years ago. Tuesday's hog purchases follow: Armour & Co. 3,800; Swift & Co. 1,800; S. & S. Co. 2,500; Morris & Co. 1,000; Anglo Am. 2,100; Hammond Co. 300; Boyd-Lunham 1,000; Western P. Co. 2,200; Roberts & Co. 800; Miller & Hart 600; Ind. P. Co. 1,000; Bren. P. Co. 800; Butchers 700; Snippers 2,500.

Total 22,500. Left over 3,500. Cattle Trade Active. Six thousand cattle arrived yesterday, a third of them rangers, including a 40-car string of the best northwest grasses from one outfit ever marketed at Chicago or any other point.

Trade was active and prices strong to 10c higher for the general run of steers and butcher stock. Veal calves firm to 25c higher. Veal calves Choice to fancy steers, \$8.90@11.30.

Poor to good steers 6.30@8.80. Fancy steers, fair to 7.50@10.75. Fat cows and heifers 5.10@8.75. Canning cows and heifers 3.50@8.95. Native bulls and stags 4.60@8.00. Feeding cattle, 600@1.100. Poor to fancy veal calves 7.25@11.00. Range steers 6.75@10.00.

Quality of Hogs Better. General quality of hogs was better than usual for Tuesday, there being a larger proportion of 230@260 lb. averages and fewer pigs than a week ago. After a dull start the market finished active and strong, with general average price a few cents lower. Most of the big packing droves cost around \$7.25, averaging 240@350 lbs. Pigs advanced 10@15c. Quotations follow:

But of sales \$7.25@7.50. Heavy butchers and ship-ping 7.45@7.60. Light butchers, 190@230 lbs. 7.45@7.65. Light bacon, 145@190 lbs. 7.15@7.55. Heavy packing, 260@400 lbs. 7.15@7.40. Mixed packing, 200@250 lbs. 7.20@7.40. Rough, heavy packing 7.00@7.15. Poor to best pigs, 60@135 lbs. 4.25@7.10. Slugs 80 lbs. dockage per head 7.25@7.75.

Lamb Values React. Trade in sheep and lambs active at prices strong to 10c higher than Monday, with fat stock showing most strength. Packers and city butchers paid up to \$7.35 for natives and \$8 lamb seems near at hand, notwithstanding the fact that eastern markets are acting poorly. Quotations follow:

Lambs, fair to fancy 6.85@7.35. Lambs, culls and feeders 5.75@7.10. Yearlings, poor to best 5.65@6.60. Vealers, poor to fancy 5.35@6.00. Ewes, inferior to choice 2.75@3.10. Bucks, common to choice 3.50@4.00.

THE INTERNATIONAL OPERATIC COMPANY.

The International Operatic Company has been in existence for a number of years. It is called International because each member of the Quintet represents a different nationality. Teckla Farm McKinzie, formerly with the Schuman Heink, the soprano, is a Swede. J. Allen Grubb, Tenor, one of Chicago's most popular concert artists, is a Scotchman. Miss Rose Holden, a well known Chicago musician, Contralto, is of German extraction. Miss Margaret Day, Piano Soloist, is an English woman, and Mr. Eurt McElmire, Bartone and Director, formerly a member of Savage's Grand Opera Company, is an Irishman. This remarkable company will give a mixed program of selections from the best of the modern popular operas, illustrated in appropriate costumes. The program will consist of solos, duets, and quartets of standard and classical music, of folk songs and of popular songs of the day. The company is in such great demand that their time is usually sold a year or two in advance.

The International Operatic Company will be the offering of the Apollo Club on November 2nd at Library Hall.

EMMANUEL PHILIPP.
It is interesting to note something about Emmanuel Philipp, the republican candidate for governor, against whom so many charges, unjust and untrue, are being brought at this time. Mr. Philipp is a man of the people—a self-made man. A man who has risen to his present position by his own integrity and worth. In a recent address in Marinette Mr. Philipp told his audience that he was born on a farm in Sauk county, and that, having worked for very small wages in a day he knew how hard it is to "make ends meet" he was taking the audience a little more into his confidence than has been his custom. His friends have repeatedly insisted that in his talks to the people he ought to make some mention of his birth place and nationality, especially as a class of politicians have taken advantage of his silence to caricature him as being almost everything that he is not. Such allusions as he makes, however, are rather too brief. As it is an interesting story a few further details would no doubt be welcome to the public. Mr. Philipp's father farmed in Sauk county under the pioneer conditions that existed before the Civil war. He was a man of great size and strength, like many who beamed their homes out of the woods, but even among that sturdy class he was famous for his endurance. A brother of the candidate for governor, who lives in Washington county, remembers how the elder Philipp carried his first winter's supply of wheat several miles in a grain bag on his shoulder and only set it down when he had crossed a stream in a rowboat. It is from such ancestry that Emmanuel Philipp inherited the remarkable endurance he has shown in the present campaign.

The pioneer Philipp was noted as a raiser of corn. As most Wisconsin people know, our state is not in what is known as the "corn belt," and it was only in recent years that we have come to have a good dent corn which will come to maturity in this section. The elder Philipp, however, persistently raised corn and it came finally to be known as "King Philipp's corn." This reference to the famous Indian chief was probably as much due to the man's magnificent physique as to his crop of Indian maize. It was on this Sauk county farm, in a log house near Barbou, that Emmanuel Philipp was born. In his boyhood, the present candidate for governor used to lead oxen, then quite generally used in Wisconsin. He went to country school and worked on the farm till he was a young man of full stature; and then, having obtained sufficient education he became a school teacher. Finally with one hundred dollars in his pocket, he combined the work of a school teacher and a farmer, and he started out in the world. He learned telegraphing and became an operator and train dispatcher. The elder Philipp, having been wounded at the battle of Chancellorsville and being captured by the rebels on that famous battlefield, did not receive proper surgical attention, and the bullet which had taken a course downward along the bone of his leg, set up a chronic gangrene from which he died some years after the war. From all of which it can be seen that Emmanuel, the youngest of three boys, was hardly born with a silver spoon in his mouth. His father was a native of Switzerland.

ALAS, POOR ROOSEVELT!
The Madison Democrat grieves for Colonel Roosevelt and his unfortunate entrance into Wisconsin politics by his endorsement of Blaine. It intimates that "our radical friends put one over on the colonel in sleek fashion when they got him to endorse the so-called 'Wisconsin idea' and incidentally Mr. Blaine."

Again is pity expressed when the colonel fully realizes that he played into the hands of the scheming La Follette politicians and really endorsed La Follette himself, whom he certainly must hate as does the devil hate holy water. Alas, poor Roosevelt! The Democrat continues by adding that the colonel is made to say things of which he certainly knows nothing. Has he not heard of the Wisconsin primaries? Does he not know that there is a general revolt in this state against extortionate taxes? And does he not know that Blaineism under another name is responsible for the economic conditions which have brought on a civic revolution here? Colonel Roosevelt has allowed himself to be played with, and he has lowered himself enormously in the estimation of Wisconsin people.

He would regard as a "real calamity" to have Wisconsin "abandon the position it has held in the forefront of the progressive movement." Why? The colonel should know that all Wisconsin practically wants to "abandon" the position. There was not a platform before the people at the primary but what was essentially an abandonment of that position. Every candidate pleaded excessive cost of government, money too lavishly expended, declared for retrenchment. The sentiment was universal. Even Senator La Follette from far-off Washington frankly admitted that progressivism had run wild in Wisconsin—that there was a change in the direction of the greater economy in state government. Senator La Follette simply voiced the sentiment which is felt over all the commonwealth. What an absurd position in which Mr. Roosevelt now puts himself in this preposterous plea for a continuation of the obnoxious conditions that have cursed Wisconsin with greater intensity year by year since our fraudulent reform was inaugurated.

worth while. Mr. Roosevelt makes a circus of himself in his dogmatism to the contrary. He is befuddled. He has been "strung" as no distinguished gentleman has been strung in this state ever before. Colonel Roosevelt should understand that Wisconsin does not have the initiative and referendum, despite his declaration of "New York introducing the initiative and referendum along the lines that Wisconsin has introduced so as to secure the maximum of good with the minimum of friction and confusion." Colonel Roosevelt needs to learn some Wisconsin fundamentals. He is off—way off. The initiative and referendum, the colonel should understand, are proposals which the people of Wisconsin next month will in all likelihood repudiate. They are merely being dreamed of instead of being actualities. Of course the colonel did not know, and it really was a shame for our artful politicians to take advantage of his easy gullibility. He is put in a pitiful plight by this exhibition of lack of understanding of Wisconsin matters. One feels humiliated that Colonel Roosevelt should have lent himself to the trickery of our bogus pundits. He has hurt himself beyond remedy in this state, and if he has not brutally betrayed Governor McGovern, who on one notable occasion went to the very limit of loyalty in his behalf, one fails to read aright the astonishing letter to which he rashly put his signature. After the November election, the colonel will regret this grotesque episode if he has any sensibility left. He has been tricked, and yielded weakly to the blandishments of designing politicians.

Someone has stated that except for the two Americas, south and north, all the civilized world is at war. Well, Canada is furnishing soldiers, meat for the slaughtering pen—and Mexico is having a nice, peaceful little scrap all its own, so this can not be true. Meantime the citizens of the United States are paying a war tax while at peace with everyone and performing the doctrine of "watchful waiting." Certainly this war problem is just as Sherman said it was—"H—"

Tuesday next is election day. By this time every voter should have made up his mind how he is going to vote. If he votes in his own interests he will vote for Philip for governor and the rest of the republican ticket. Philip stands for lower taxes and a business administration of state affairs—not domination by the theoretical university dreamers who are paid good salaries to figure out more ways of imposing taxes on the citizens of the state.

The "pork barrel" is to be filled at all costs. The southern congressman who sought to stop it failed miserably and went back home without their action money bag and are consequently quite provoked. However it is hoped the next congress will be republican and have something to say and something to do with the distribution of the hundred million deficit that the democratic tax reform movement inflicted upon the American taxpayer.

When it comes to atrocities in war it looks as though the pot was calling the kettle black over across the pond. Reports from all sources show that cruelties have been inflicted upon non-combatants by the fighting forces and certainly up to the present time Belgium is an example of what any civilized country can hope for when it is the fighting ground for such battles as are being waged at present.

Rock county has had a prosperous year, taking it all in all, and it should be ready for another year. The nations of the world will look for our surplus more than now and it behooves the growers and the manufacturer to be prepared to meet that demand. Meantime the winter comes on apace and we must prepare to meet local demands upon our purses for those we are not as fortunate.

In the advertising columns appears a call for a woman who can knit the good, old-fashioned mittens for children. Knitting is an art these days and here is the opportunity of some person who knows how. Do you not remember how warm and comfortable those red mittens of your childhood felt? Well, the Home Helpers' league wants some more just like them.

Forget the war in Europe for a minute and look to your own interests at the polls next Tuesday. Figure out your tax receipts, figure out the increased cost of living and then if you look for your own interests walk to the voting place and cast your ballot for the straight republican ticket from top to bottom and vote NO on all of the ten amendments.

OUR National Opportunity LESSONS for AMERICA from the WAR

NO LACK OF BUSINESS CONFIDENCE.
By Robert H. Benedict.
One of the brightest words in the lexicon of commerce is CONFIDENCE. When the European war broke out, we had no lack of confidence in our ability to keep the wheels turning, and so there was nothing like a panic. During the past five years the writer has traveled much in all sections of the country and has had plenty of opportunity for observing conditions. Through the past month he has been constantly on the move in the eastern and central states. That national confidence is justified is borne out by these first-hand observations: Railroad passenger traffic seemed fully up to the normal mark. Business in the cities and small towns was thriving as usual. Commercial travelers reported healthy conditions and good sales, the only complaint being that the fine weather of early October delayed retail sales of winter clothing. Farming communities were found especially prosperous and confident. With wheat approaching \$1.20 per bushel, with preparations under way to raise much livestock for the rising market, and with all commodities bringing good prices, the farmers are optimistic. It is significant that September was a record-breaking month in the automobile industry. Leading makers tell us of sales exceeding \$3,000,000 and \$4,000,000 each for the month. The 1914 season will far outstrip its predecessor. Our foreign trade for September showed a great improvement over August. Exports increased \$40,000,000 to a total of \$150,000,000, and imports increased \$10,000,000 to \$139,000,000. This left a balance of trade in our favor of \$17,000,000. October's foreign trade shows still greater improvement.

THE TORTURES OF RHEUMATISM

are always aggravated during damp, changeable weather and ordinary treatments are often useless.

Such conditions need the oil-food in Scott's Emulsion to reduce the injurious acids and strengthen the organs to expel them.

Scott's Emulsion, with careful diet for one month, often relieves the lame muscles and stiffened joints and subdues the sharp, unbearable pains when other remedies have failed.

LOVE, LUCK & GASOLINE

The fifty mile a minute comedy, "LOVE, LUCK AND GASOLINE," is the speediest funmaker ever produced by the Vitaphone Company. During the action of the comedy every conveyance that can show speed is utilized and the audience fairly holds its breath as each succeeding vehicle is flashed on the screen. Joan Bunny, Cutey (Wally Van), and Miss Tomboy (Lillian Walker) are the principals in "LOVE, LUCK AND GASOLINE," and they are as speedy a trio of comedians as ever faced a camera. "LOVE, LUCK AND GASOLINE" will be the star feature at the Majestic Saturday.

THE INTERNATIONAL OPERATIC CO.

Presents An Array Of Artists Of Unusual Ability Consisting Of The Following.

Tekla Farm late prima donna soprano with Mme. Schumann-Heink in and concert work. She sings in English, Swedish, German and Italian. As an associate of the great Schumann-Heink this artist proved her ability and established herself in the musical world.

Rose Heidenreich has attracted the attention of musical critics during several seasons of pronounced success. Her most recent triumph was with the National Grand Opera Company, which filled a long season at a prominent Chicago theatre.

J. Allen Grub tenor, has been prominently identified with important musical productions in Chicago and elsewhere and has won exceptional success with each appearance. His voice is of the brilliant, robust quality and he sings with the ease and finish of the true artist.

Burt McKinnie has a voice of beautiful natural quality. It is a true, rich, vibrant baritone of stalwart proportions. He was a leading baritone for years in Savage's English Grand Opera Company and was a valued member of that splendid organization.

Margaret Day as an accompanist, is all that could be desired. She is sympathetic and artistic to a marked degree and gives to the singer just the support needed to secure the best results. As a soloist her work is of exceptional merit.

WOMAN'S PAGE

The Evening Chit-Chat BY RUTH CAMERON

WHAT IS YOUR AURA?

There is a great deal said nowadays by psychologists about people's auras. According to the dictionary an aura is "any subtle, invisible, emanation, exhalation." The psychologists tell us that people's souls give off this subtle, invisible emanation and that if our eyes were properly trained spiritually, it would not be invisible. Some psychologists believe that animals and perhaps children, have a more spiritual vision than we and can see this aura. That is why a dog or a child will sometimes take a dislike to a man who is considered a considerable acquaintance by worldly, grown-up folks, or form an attachment for some unsuccessful and despised bit of human flotsam, and be spiritually right in these judgments.

RUTH CAMERON

Now, though I do not attempt to understand the fine psychological shadings of the aura theory, it does seem to me that there is a great deal in it. I know many people who seem to disseminate mental states of one kind or another. For instance, I know a woman from whom an aura of worry seems to emanate. A friend of mine went on a pleasure party of which this woman was a member. "Did you have a good time?" I asked her afterwards. "No," she said. "Why no better than that? Because Mrs. R. was with us. You know she is one of those people who do not have a good time. Little things fret her too much for that, and she charged the atmosphere with her worry. So it wasn't possible to have as good a time as we would have had in a perfectly clear, sunny atmosphere."

This woman affects almost everyone that way. Her children are fretful and irritable. Her servants soon become tired out, although their actual duties are by no means heavy.

On the other hand there are many people from whom there seems to emanate the good time atmosphere. Enjoyment radiates from them, simple pleasures are transformed into glorious good times when enjoyed in their company. One would rather share simple pleasures with them than expensive and elaborate amusements with the other type. Then I know people who radiate discontent and complaint. They are always pitying themselves, always resenting some slight or deprivation. Such people make everyone about them feel vaguely uncomfortable. Many well meaning people have the misfortune to have an aura of restlessness and nervous tension. They are the people who tire you so without any apparent reason. Rarely one meets a soul from which emanates the exquisite aura of peace and poise and serenity. These are the people we cling to and trust and rest ourselves in. I have never been able to find more than a few of these. As many more as there are types of personalities. As a man liveth and mouldeth his character so is his aura. What is your aura?

as can be borne.

THE TABLE.

Stuffed Eggplant—Cut eggplant through center, dig out contents, put in chopping bowl, chop fine, season with salt, pepper and butter. Mix cup of bread crumbs into the mess and return to shell, pouring in some hot water. Put in pan and bake in oven. Dish up in shells.

Eggplant Baked—Roll until soft and scoop out all inside; mash fine; to every cupful add tablespoon cracker crumbs, teaspoon butter, pepper and salt to taste; put into dish for the table; beat an egg very light and spread part over the top of dish, then sprinkle with rolled crackers, and, lastly, spread with remainder of the egg. Set into oven to brown.

Nut Bread—Very good served as sandwiches spread very thin with butter. Take two cups milk, one-half cup sugar, two cups graham flour, two cups white flour, one cup nut meats, four teaspoons baking powder, one teaspoon salt, and one teaspoon syrup. Mix, let rise one-half hour in a warm place, then bake about thirty minutes or until a golden brown.

To Cook Rice in Twenty Minutes—Put desired quantity to cook the night before if wanted for breakfast. Take a cup of rice and four pints of water, as the more water used the less it will boil to bottom of kettle. In the morning drain off water into a kettle and let come to a boil; put rice in, then place an asbestos mat under the kettle and let boil twenty minutes. At the end of that time the rice should be thoroughly cooked. Avoid stirring it if possible, if you desire the grains to retain their shape. Drain water off and season to taste. But best of all is steamed or baked rice.

Fruit Layer Cake—Two cups sugar, two-thirds cup lard, three and one-half cups flour, one teaspoon soda, one cup fruit juice, two cups seeded raisins, four eggs, one-half teaspoon salt. Cream lard and sugar together, add eggs well beaten, then fruit juice, now add flour, soda and salt sifted together, and last of all, raisins dredged with flour. Bake in three layers in slow oven. Put together with frosting made of whites of two eggs with powdered sugar to thicken; frost top of cake and sides. Decorate top with English walnuts and raisins; also put walnuts and raisins between layers.

Cake-Crumbs—Crumble stale cake (or cookies) and put a layer of these crumbs in bottom of buttered pudding (or boiling) dish. Add a layer of chopped raisins. Sprinkle with a little sugar, cinnamon and nutmeg. Add another layer of crumbs and sprinkle with same spices. Dot top with bits of butter and pour over top a cup of milk. Bake in moderate oven until crusty on top. Serve following sauce with it: Mix one-half cup granulated sugar with one tablespoon flour. Pour over this one cup boiling water and let boil until clear (one minute). Then add one teaspoon butter and juice of half an orange, and it is ready to serve with the pudding.

Dear Mrs. Thompson: (1) Is it all right to stay with your lady friend till Monday when you go to see her on Sunday? (2) Is it necessary for a boy to take a girl home from a dance or other place? (3) Do you think a girl likes you if she refuses to dance with you? (4) Is a man of twenty-two and a girl of eighteen the right age to "kiss the bucket"? (5) Is it necessary for a boy to tip his hat to every girl he sees and know? (6) Is a boy of nineteen too old to go with a girl of sixteen? (7) Should he ask to take her home? (8) Do you think every two weeks too often for a boy to go to see his girl? (9) If you mean to stay until twelve at night, I answer no by all means. Eleven is the latest it is proper to remain unless there is a party of young people together. (10) If a girl has no companion and must go home alone unless you accompany her it would be a gentlemanly thing to offer to see her home. But no girl should go to any evening entertainment without making provision beforehand for getting safely home. (11) Not usually, though there might be other reasons for the refusal. (12) As "kissing the bucket" means dying, I think you must have used the wrong expression. They are young to marry, if that is what you wished to ask. (13) A boy tips his hat to every girl who speaks to him or to a girl he does not know, if she is in the company of a man he knows. (14) No. (15) If a girl of sixteen is out in the evening she has made arrangements to get home if she is discreet and self-respecting. (16) No.

Heart and Home Problems

Dear Mrs. Thompson: (1) What colors are appropriate for a woman of forty years to wear? (2) Kindly suggest an appropriate style of a suit for a girl of fourteen and what color. (3) Kindly tell me what would be good for a moldy cellar. (4) Is a girl's brown or dark green would be very good, and they are the latest. (5) Any color that is becoming can be worn. The blouse waist and long tunic over plain skirt would be very pretty and stylish. (6) A pan of quicklime left standing to air slack will purify the air. The sides should be whitewashed and air should be let in every day. Dear Mrs. Thompson: I love my first cousin dearly and she loves me the same. We do not want to do wrong, and want to do right in the sight of God. Is it wrong for first cousins to marry? Please tell me. JOHNSON. The trouble with the marriage of first cousins is that children of people so nearly related are apt to be dull or defective in some way. It is not a prejudice and religion has nothing to do with it. Dear Mrs. Thompson: I am a young girl fifteen years old and have a boy friend six months my senior. We are both interested in school work. Last Sunday evening he asked me if he might come down the following evening. I consented, as my parents did. Monday evening came and he failed to keep his engagement. He is of a very stubborn disposition and has offered me no apology. What shall I do? BIRDIE TRUE LOVE. There is nothing you can do. If the boy does not apologize, should refuse to make another date with him, or have anything to do with him. He is very discourteous. Dear Mrs. Thompson: Will you please tell me some sewing school which requires three months' time to complete the course? CURLEY HAIR. If you write to the nearest Y. M. C. A. that gives courses in dressmaking, they will give you full information. They give thirty lessons for a course and you can have evening work or day lessons, as you choose.

Household Hint

SIMPLE HOME REMEDIES.—An effective treatment for constipation is the number of people suffering from constipation is legion, but in most cases the disorder is merely functional. The peristalsis of the intestine, that is, the muscular contraction and relaxation of the tubular contents onward, has become weakened. Get from your grocer a ten-cent package of dry, uncooked bran, cured of the bitter taste peculiar to bran in its original state. Take one-half teaspoon moistened with a little water every night; in a stubborn case, repeat dose in morning. The bran produces friction, or a scratching process which gives tone to the lax intestine. In a week's time your system will be responding naturally to this wholesome food and the drug habit forgotten. To Relieve Toothache—Toothache can be greatly relieved by bathing gums and cavity with vinegar as hot

APPLY SULPHUR LIKE A COLD CREAM WHEN SKIN BREAKS OUT SAYS SULPHUR WILL END ITCHING ECZEMA

In the treatment of the various forms of disfiguring, itching and burning Eczema such as Acne, Ringworm, Salt Rheum, there is nothing known that can take the place of bold-sulphur. It effects such prompt relief, even in the aggravated Eczema, that it is a never-ending source of amazement to physicians. For years bold-sulphur has occupied a secure position in the treatment of cutaneous eruptions by reason of its cooling, parasite-destroying properties. Bold-sulphur is not only parasiticide, but antipruritic and antiseptic, therefore invaluable in overcoming irritable and inflammatory affections of the skin. While not always establishing a permanent cure, yet in every instance it instantly stops the agonizing itching; subdues the irritation and heals the inflamed, raw skin right up and it is often years later before any Eczema eruption again appears. Those troubled should obtain from any good pharmacist an ounce of bold-sulphur and apply it directly upon the abrasion like an ordinary cold cream. It isn't unpleasant and the prompt relief afforded is very welcome. This is published for Walter Dodge Co., Cincinnati, Ohio.

The Wife's Money

"Of course \$3000 a year is not much to support a wife and four children on these times," the minister was saying. "I realize that and it is good to help out by giving musical lessons. What I complain of is the house so full of people that have got to be fed. There's Julia, the dark haired one. She does most of the work and cares for the baby. Yes, she is paid mostly with music lessons, but there are all her clothes and food. "Alice is not needed at all. The children could go to school like other Americans, but my wife insists on their being taught at home so they can have time to practice their music." The slender, white-faced little man looked dismally over the horse's back at the flutter of brown leaves falling down through the autumn stillness. "I suppose a man who can't make enough to support his family has no right to expect to have his opinion considered. When we were first married and could live on a poor minister's salary, everything was different. Emily cared for me then. Now since she's teaching every day she makes me think of a school carrier full canvas. I am a little tug that must get her in and out of the harbor. I just get settled to do some studying when I hear, 'Victor, is the horse ready?' I wouldn't mind so much if my name were anything else. If she'd only say what she thinks and call me 'Defeat' I could stand it better. 'Oh, yes, of course I know she works hard and I ought to be willing to put in the biggest part of my time hitching and unhitching and going to the train and coming back, rain or shine. "No there's nothing else I can do. I've thought about it enough to know. I must keep on preaching to empty pews and waiting for the people to get ready to pay my \$75 a month. "What would I have her do? Why, just teach the children here in town two days a week. She could do that and do all her own work but the washing and ironing and not work half as hard as she does now, and we could have home bread. The place is like a hotel as it is, and the children have no mother really. Why, there are four outside our own family besides you. Of course you are a visitor here, but not talking about you. There's the seamstress at \$2 a day, and the laundress, she's here two or three days every week. You see it mounts up. What I claim is, if I had but it does no good. Life will go right on this way to the end of the chapter. Get up!" And he flapped the lines over the patient old horse's back and we rattled down the road.

CHRISTABEL HOPES TO INCLUDE EVERY BIG CITY IN TOUR

Miss Christabel Pankhurst in cap and gown.

Miss Christabel Pankhurst, the famous English suffragette, began her campaign in the United States with a monster mass meeting in New York on October 24. She hopes to include every city of importance in this country in her lecture tour. It is not usually known that Miss Pankhurst is privileged to write the letters L. L. B. after her name. The degree was conferred on her by Victoria College at Manchester, England.

FRENCH SAFELY GARNER WHEAT CROP FOR YEAR.

(Correspondence of The A. P.) Paris, Oct. 23.—The wheat crop, which at the beginning of the war gave the authorities anxiety, has been safely garnered. The agricultural department estimates the yield at 60 to 80 million metric hundred weight, which is more than ten per cent. below the yield of 1913. France consumes 80 million hundred weight, and since 10 million hundred weight is required for seed, the shortage will be from 10 to 30 million hundred weight. With the duty on cereals suspended this shortage will be easily made up. The best root crop, which is very important in the north of France, furnishing the raw material for a great many sugar refineries, has suffered. The German occupation has been an advance of 3 cents per pound in the price of sugar and the public has been warned that a further advance is possible. Next to the beet crop, the most important product in the region of the military operations in champagne.

Noted Editor Writes of Maté

"Maté takes the place of tea or coffee with the South Americans of Paraguay, Uruguay and Argentina, and is extensively sold all over South America and to some extent in Europe," writes W. D. Boyce, publisher of the Chicago Saturday Blade and the Chicago Ledger, in his book entitled "Illustrated South America." "It is rather bitter," he writes, "but I liked it. One English doctor told me that he had used it himself for forty years and considered it very much less injurious to the head and heart than tea or coffee, while it gave great strength and endurance to the nerves. "The Argentine gaucho (cowboy) often goes for days without bread with his mate. His greatest mainstay, however, is Maté, which he boils the first thing in the morning, and without which he would be unfit for his day's work. "Having had sufficient of this beverage in the morning, he will go all day without anything else to drink or without food to eat. Grocers in this city are selling a great deal of Woodley's Maté. It comes in 50-cent packages and is very easy to prepare. Its peculiar tang and flavor make it a very desirable beverage for any and every meal."

All of the Champagne province was temporarily in the hands of the Germans and the heavy fighting of the battle of the Marne extended over the entire length of the wine growing country. The damage to the crop seems to be less than was expected. Around Espernay in particular the vines seem to have been intentionally spared by the Germans as well as the French, but in other regions the terrible artillery fire that raged for days worked great havoc among the vineyards. Some reports indicate that around Rheims the crop is entirely lost, while further south it has suffered comparatively little.

OSTEOPATHIC TREATMENT KILLS GERMS, HE SAYS.

Jackson, Mich., Oct. 23.—Addressing the annual convention of the Michigan Osteopathic association, which assembled here today, Dr. John Deason, of Chicago, director of the A. S. Still Research Institute, announced that recent laboratory experiments at his institution had proved conclusively that osteopathic treatment has a specific and powerful effect on germ invasions. This he said, was directly contrary to the belief of the general public that the new school of practice was applicable only to chronic diseases and not to acute or bacterial conditions. Nearly 200 osteopaths from Michigan and neighboring states are attending the sessions, which will continue tomorrow. Among the osteopathic authorities who will speak before the convention are the following: Dr. Ernest L. Proctor, of the Chicago College of Osteopathy; Dr. L. von H. Gardine, of Kirksville, Missouri, professor of nervous dis-

eases at the American School of Osteopathy, and Dr. S. L. Taylor, of the Des Moines College of Osteopathy. Property changes hands daily because it has been advertised in the real estate column of Gazette West Ads.

A UNIQUE RECORD

Very Few Like It In Our Broad Republic.

Home testimony for Doan's Kidney Pills, published in every country, is of itself convincing evidence of merit. Confirmed testimony forms still stronger evidence. Years ago, a citizen of Janesville gratefully acknowledged the benefit derived from Doan's Kidney Pills. The statement is now confirmed—the proof is convincing. Cases of this kind are plentiful in the work of Doan's Kidney Pills—the record is unique.

Mrs. Emilie Hell, 266 Riverside St., Janesville, says: "I suffered terribly from pains through the small of my back for months. I had severe pains in my head and my kidneys didn't act regularly. I was feeling miserable when someone told me to get Doan's Kidney Pills. I got a supply at the Janesville Drug Co. and used two or three boxes. They made me well again. I still take Doan's Kidney Pills once in awhile and they keep me in good shape. You may continue to use the recommendation. I have used Doan's Kidney Pills before. Three boxes, at all dealers. Don't ask for a kidney remedy—Doan's Kidney Pills—the one that Mrs. Hell had. Foster-McClellan Co., Props., Buffalo, N. Y."

Have Color In Your Cheeks

Be Better Looking—Take Olive Tablets.

Your skin is yellow—complexion faded—tongue coated—appetite poor—have a bad taste in your mouth—no good feelings—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substance for calomel—were prepared by Dr. Edwards after 17 years of study on his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

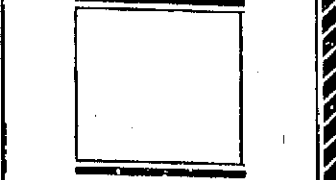

If you want a clear, pink skin, bright eyes, no pimples, a feeling of baby-like childhood days, you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—without any dangerous after effects. They start the bile and overcome constipation. That's why millions of times are sold annually at all drug stores.

Take one or two nightly and note the pleasing results.

The Olive Tablet Company, Columbus, Ohio.

The Last Shot

By FREDERICK PALMER

(Copyright, 1914, by Charles Scribner's Sons)

"Yes, sir. The officers not to disturb them are quite positive, and as a junior I could not do so except by their orders as superiors. The chief, before retiring, however, repeated to me, in case any inquiry came from you, sir, that there was nothing he could add to the staff's message to the nation and the army. It is to be given to the soldiers the first thing in the morning, and he will let you know how they regard it."

"Confound these machine minds that spring their surprises as fully executed plans!" exclaimed the premier.

"It's true—Partow and the staff have covered everything—met every argument. There is nothing more for them to say," said the foreign minister.

"But what about the indemnity?" demanded the finance minister. He was thinking of victory in the form of piles of gold in the treasury.

This question, too, was answered. "War has never brought prosperity," Partow had written. "Its purpose is to destroy, and destruction can never be construction. The conclusion of a war has often assured a period of peace; and peace gave the impetus of prosperity attributed to war. A man is strong in what he achieves, not through the gifts he receives or the goods he steals. Indemnity will not raise another blade of wheat in our land. To take it from a beaten man will foster in him the desire to beat his adversary in turn and recover the amount and more. Then we shall have the apprehension of war always in the air, and soon another war and more destruction. Remove the danger of a European catapasm, and any sum extorted from the Grays becomes paltry beside the wealth that peace will create. An indemnity makes the purpose of the courage of the Grays in their assaults and of the Browns in their resistance that of the burglar and the looter. There is no money value to a human life when it is your own; and our soldiers gave their lives. Do not cheapen their service."

"Considering the part that we played at The Hague," observed the foreign minister. "It would be rather inconsistent for us not to—"

"There is only one thing to do. Lanstron has got us!" replied the premier.

"The premier of the Browns found himself talking over the long distance to the premier of the Grays in as neighborly a fashion as if they had adjoining estates and were arranging a matter of community interest."

"You have been so fine in waiving an indemnity," said the premier of the Grays. "that Turcas suggests we pay for all the damage done to property on your side by our invasion. I'm sure our people will rise to the suggestion. Their mood has overwhelmed every preconceived notion of mine. In place of the old suspicion that a Brown could do nothing except with a selfish motive is the desire to be as fair as the Browns. And the practical way the people look at it makes me think that it will be enduring."

"I think so, for the same reason," responded the premier of the Browns. "They say it is good business. It means prosperity and progress for both countries."

"After all, a soldier comes out the hero of the great peace movement," concluded the premier of the Grays. "A soldier took the tricks with our own cards. Old Partow was the greatest statesman of us all."

"No doubt of that!" agreed the premier of the Browns. "It's a sentiment to which every premier of ours who ever tried to down him would have readily subscribed."

The every-day statesman smiles when he sees the people smile and grows angry when they grow angry. Marta had yet to bear the shock of Westerling's death. After learning the manner of it she went to her room, where she spent a haunted, sleepless night. The morning found her still tortured by her visualization of the picture of him, irresolute as the mob pressed around the Gray headquarter.

"It is as if I had murdered him!" she said. "I let him make love to me—I let my hand remain in his once—but that was all, Lanstron. I—I couldn't have borne any more. Yet that was enough—enough."

"But we know now, Marta," Lanstron pleaded. "that the premier of

was the first to find words. It shouted in rising anger that Lanstron had betrayed the nation. Army officers whom Partow had retired for lecherous habits said that he and Lanstron had struck at their own calling. But the average man and woman, in a daze from the shock of the appeals after a night's celebration, were reading and wondering and asking their neighbors' opinions. If not in Partow's then in the staff's message they found the mirror that set their own ethical professions staring at them.

Before they had made up their minds the correspondents at the front had set the wires singing to the evening editions; for Lanstron had directed that they be given the run of the army's lines at daybreak. They told of soldiers awakening after the debauch of yesterday's fighting, normal and rested, glowing with the security of possession of the frontier and responding to their leaders' sentiment; of officers of the type favored by Partow who would bring the industry that commands respect to any calling, taking Lanstron's views as worthy of their profession; of that irrepressible poet laureate of the soldiers, Captain Stransky, I. C. (iron cross), breaking forth in a new song to an old tune, expressing his brotherhood ideas in a "We have ours—let them keep theirs" chorus that was spreading from regiment to regiment.

This left the retired officers to grumble in their corners that war was no longer a gentleman's vocation, and silenced the protests of their natural ally in the business of making war, the noisy element, which promptly adapted itself to a new fashion in the relation of nations. Again the great square was packed and again a wave-like roar of cheers greeted the white speck of an eminent statesman's head. All the ideas that had been fomenting in the minds of a people for a generation became a living force of action to break through the precedents born of provincial passion with a new precedent; for the power of public opinion can be as swift in its revolutions as decisive victories at arms. The world at large, after rubbing its forehead and readjusting its eye-glasses and clearing its throat, exclaimed:

"Why not? Isn't that what we have all been thinking and desiring? Only nobody knew how or where to begin."

"Yes, sir. The officers not to disturb them are quite positive, and as a junior I could not do so except by their orders as superiors. The chief, before retiring, however, repeated to me, in case any inquiry came from you, sir, that there was nothing he could add to the staff's message to the nation and the army. It is to be given to the soldiers the first thing in the morning, and he will let you know how they regard it."

"Confound these machine minds that spring their surprises as fully executed plans!" exclaimed the premier.

"It's true—Partow and the staff have covered everything—met every argument. There is nothing more for them to say," said the foreign minister.

"But what about the indemnity?" demanded the finance minister. He was thinking of victory in the form of piles of gold in the treasury.

This question, too, was answered. "War has never brought prosperity," Partow had written. "Its purpose is to destroy, and destruction can never be construction. The conclusion of a war has often assured a period of peace; and peace gave the impetus of prosperity attributed to war. A man is strong in what he achieves, not through the gifts he receives or the goods he steals. Indemnity will not raise another blade of wheat in our land. To take it from a beaten man will foster in him the desire to beat his adversary in turn and recover the amount and more. Then we shall have the apprehension of war always in the air, and soon another war and more destruction. Remove the danger of a European catapasm, and any sum extorted from the Grays becomes paltry beside the wealth that peace will create. An indemnity makes the purpose of the courage of the Grays in their assaults and of the Browns in their resistance that of the burglar and the looter. There is no money value to a human life when it is your own; and our soldiers gave their lives. Do not cheapen their service."

MICHIGAN ELEVEN DEPARTS TO MEET HARVARD SATURDAY

Coach "Hurricane" Yost left Ann Arbor with his squad of football players this morning for Cambridge, Mass., the site of the Harvard team, for the intercollegiate contest to be staged Saturday. The team was only sent through light practice since the Syracuse game to prevent possible injury. Coincidence marked the Michigan team, who appear to bank their hopes on defeating the Crimson team on Saturday. Yost's stellar quarterback, the team is in its full strength, having Spilane, the Michigan toe artist, Lyons, end, and Milard on the squad. Harvard's big tackle, Langan, quarterback, Hardwick, fullback, guard, and Mahan, halfback—will be trotted out to meet the westerners. Coach Houghton has drilled his team on Yost tactics. Dr. Crickley is out of the hospital and medical authorities declare that the giant will be able to play in the Yale game.

WELSH WINS OUT WITH MATTY BALDWIN ON POINTS

Freddie Welsh showed the New York fans a little of his championship ability when he was given a close decision over Matty Baldwin after twenty rounds of hard fighting. The British champion fought a fast, clever, dancing fight, hitting Baldwin often and clean, but with little effect on the sturdy New Yorker. Mike Gibbons of St. Paul, claimant of the middleweight championship, gave Billy Maxwell a hard trimming in ten rounds of hammering fighting. Maxwell was powerless before the St. Paul platoon and clinched during the greater part of the battle. Kid Williams, bantam champion, was forced to travel the limit in ten rounds of whirlwind milling with "Dutch" Brandt at New York. Williams had a clear shade on his opponent.

Sport Snap Shots

Lawson Robertson, the trainer of the Irish-American A. C. team, is a believer in the married athlete.

More than half the scoring strength of my team that won the national track and field meet at Baltimore was composed of married men, proudly declared Robertson the other day.

The married men on my team scored five more points than the total of the second highest team in the points—The New York A. C. The significance of "Robbie's" view is in the fact that nowadays the competitive careers of our athletes are much longer than they were not very long ago. Advanced training ideas have prolonged the "life" of the athlete so that many of our great track and field performers do not give up active competition when they "settle down," but stay in the game to win further honors and jewelry for the "missus."

A few years ago a runner was supposed to be "run out" in four years, or five, at the outside. Properly banded, the good ones last for ten years. Mel Sheppard has been racing for thirteen years, and this fall he demonstrated his ability to do better than 51 seconds for the quarter. George Bonhus raced for eleven years and broke records at the age of thirty-one years.

Pennsylvania lost two football men last week. Both of them because they did not want to work their way through. They came to Penn and thought as they were great football stars at school they would be their way paid along. Both went because, though Penn will, whenever possible, help a poor student, they will not professionalize any athlete.

Probably the most astonishing golf story of the year comes from the gossip surrounding the preliminary to the women's golf championship recently played at Glen Cove, N. Y. The story is that a man—of professional of considerable standing—played in the qualifying round of the tournament disguised as a woman and failed to qualify.

The story is going the rounds of the women golfers, but those who know or declare they know, refuse to disclose names. It is stated that the man was employed by a woman

Indians over to Toronto two seasons ago and picked up some valuable pointers concerning the open attack.

Amusements

AT THE MYERS THEATRE.

"WHEN DREAMS COME TRUE." From time to time during the past theatrical season, stories have come to the newspapers regarding the successful engagement played by "When Dreams Come True" in New York, Chicago, and Boston.

Our local theatregoers who have no doubt read these stories, will now have an opportunity of seeing this widely discussed musical comedy when it comes to Myers Theatre, Thursday, November 3, matinee and evening.

The play tells of the adventures of a wealthy New Yorker's spry young son, becomes involved with a French dancer while he is in Paris, has his allowance cut off by the irate parent, and thus is compelled to go home in the steerage. In the first cabin, there is a young girl whom he sees and with whom he falls in love, but of course cannot meet until both are on shore, where trouble accumulates for them. In the course of the play the young fellow finds himself simultaneously and unwillingly engaged to three or four females of varying ages and charm, and it is not until the last minute that he is free to marry his dream girl of the ocean liner.

The scenic investiture of the play is elaborate to the last degree. One scene especially the ball-room in the last act representing the highest degree of the scene painters' art. This scene is painted on silk and the woodwork is of Circassian Walnut. There are nearly a score of dancing numbers most of them invented by Mr. Santley and in nearly all of which he participates. A chorus composed largely of pretty girls who can sing, dance and wear gowns is a feature of the performance.

The costumes shown in "When Dreams Come True" are exceptionally brilliant and they represent the last word in the fall fashions.

AT THE APOLLO.

"House Next Door."

Massive settings were used in staging "The House Next Door," which will be presented at the Apollo tonight in five acts. A most spectacular scene is that where the daughter of the poor aristocrat makes her debut in grand opera. The ballroom scene is a pretty one also. A high class play like this in motion pictures with its cast of stars and massive scenery, is hardly comparable to a stage production where a cheap company presents cheap melodrama. The multiple reel photo plays of today have the public's approval.

Apollo Vaudeville.

The management is assured of an extra good act for the balance of the

week beginning Thursday matinee. "The Girl From Bonnie Scotland" with Joe Edmonds and Gertrude Lang in vaudeville's latest Scotch musical comedy. Ben Horton, comedy clay modeler, and Jean McElroy, the girl with the harp.

"A SMALL TOWN GAL" GOOD RURAL COMEDY

The Jack Bessey Stock Company Entertains Packed Audience at Myers Theatre Last Evening.

It is remarkable how popular this Jack Bessey Stock Company is with the Janesville public. They have played to capacity houses at each performance this week. Last night their vehicle was "A Small Town Gal," a clever, rural comedy. Throughout the piece a tender love story was paralleled by the story of how love and devotion triumphed over deceit and wickedness.

The Bessey Company will appear tonight in "The Reformer."

POLITICAL ANNOUNCEMENT—Authorized by L. C. Whittet and to be paid for at 40c per inch.

To the Voters of the 1st Assembly District, of Rock County:

The Home Rule and Tax Payers' League has tried to find out the position of the different candidates for legislative and state offices on the principles adopted by the League.

We have done this by personal interviews with candidates, wherever possible, by sending out letters, containing statements of our principles and asking for answers, and inviting comments, and also by information received from various members of the League throughout the state.

In doing this work, the League has acted impartially, and with a desire to be fair to candidates of all parties. Its sole object in getting this information has been, and now is, to find out for what candidates it is, in our judgment, safe to vote, and thus inform our members.

The people of Wisconsin demand lower taxes, greater economy in the management of public affairs, and a return to what may be called a genuine democracy. We believe we can state truthfully that, regardless of party, an overwhelming majority of our people ask for these things, and do not intend to vote for any candidate who is not in sympathy with our principles.

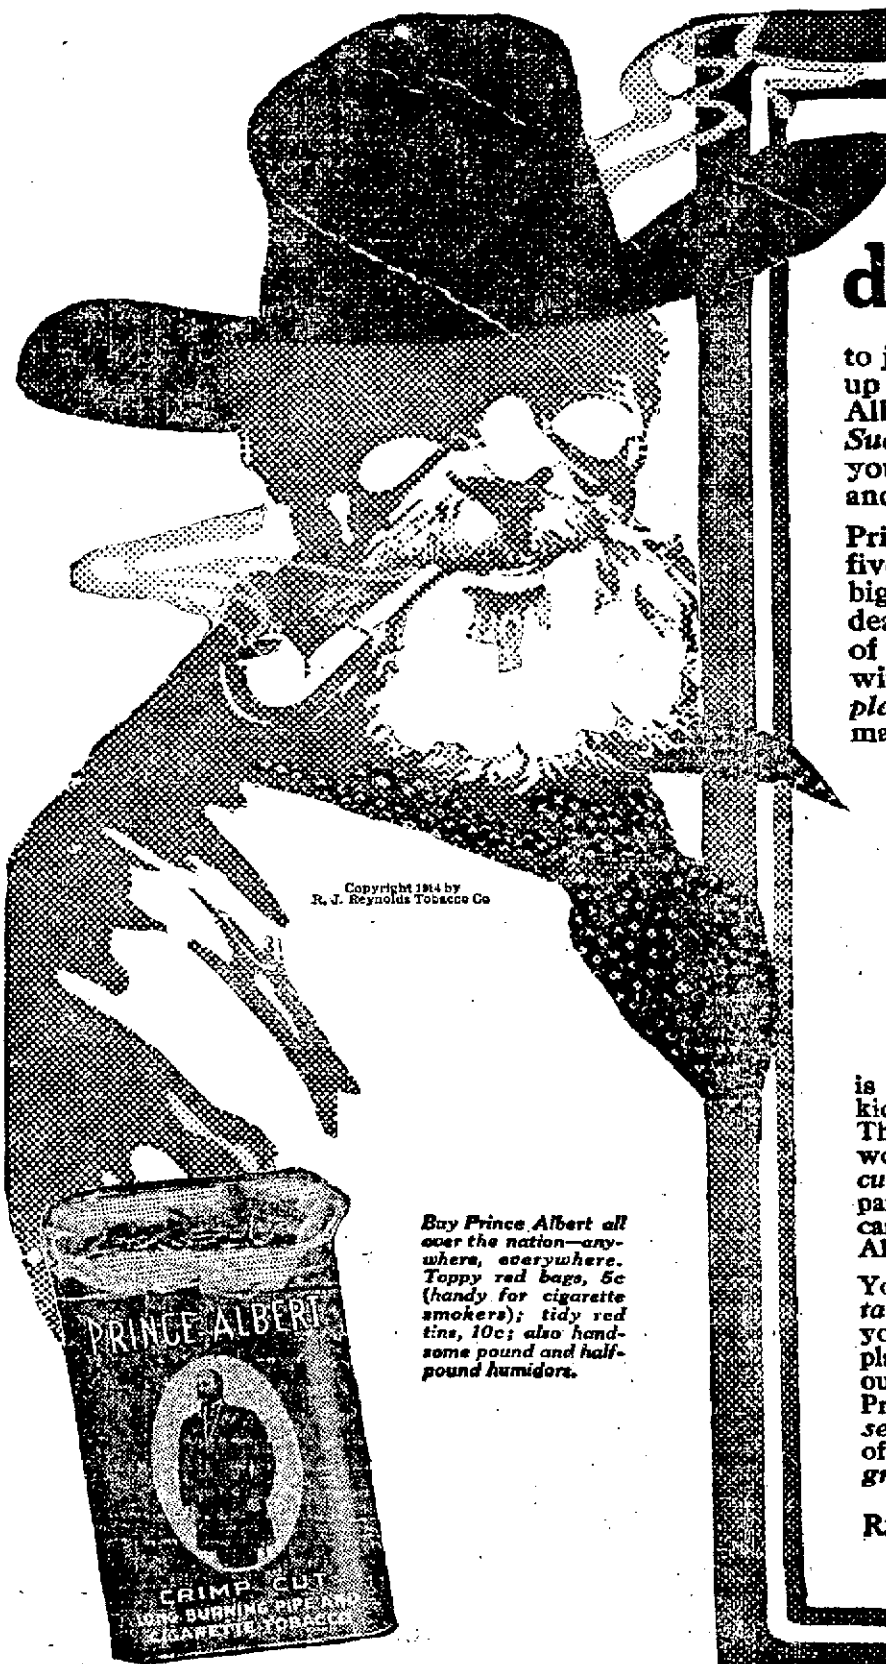

Our desire has been to get the most reliable information, and then, in making our report, to deal fairly with every candidate, no matter to what party he belongs. On such information, then, as we have been able to get, we desire to state to the electors, that, in our judgment, they can safely vote for Mr. L. C. Whittet for the office of assemblyman from the 1st Assembly District, in Rock County.

Dated at Madison, Wis., this 23rd day of October, 1914.

Mighty like drawing aces

to jam a jimmy pipe brimful or roll up a makin's cigarette with Prince Albert, then make fire with a match! Such smokings! Yes, sir, the kind you can draw to all day and all night and have a lot of fun all the time!

Prince Albert came into the game five years ago a little stranger in a big land, but it was cut for a square deal, and today it is the one best bet of men everywhere who play fair with their tongues and want fair play—with all the cards on the mahogany! Catch the thought?

PRINCE ALBERT
the national joy smoke

is built like a thoroughbred. It won't kick, it won't bite, it won't parch! That's because it is made by the now world-famous patented process that cuts out the kick and the bite and the parch! No other tobacco ever was or can be today anywhere near like Prince Albert!

You can raise right here—and clean the table—that Prince Albert will win with you because it's true blue, any way you play it! Costs a dime to sit in and find out first-hand that all we claim for Prince Albert is case cards—signed, sealed, delivered—with the reputation of this great business right behind every grain of tobacco! Does that listen?
